

Totally Integrated Control with ZigBee®

Somfy presents...

the next level of integrated motor control with the Glydea™ ZigBee® Plug-In Module.

The Glydea™ ZigBee® Plug-In Module allows Somfy's line of Glydea™ drapery motors to receive ZigBee commands. This innovative plug-in module connects to the bottom of Glydea motors for seamless compatibility with third party automation systems utilizing ZigBee. Compatible with Glydea 35 and 60e dry contact motors.

The Glydea™ ZigBee® Plug-In Module is compatible with the ZigBee® Pro feature set.

ZigBee® is a registered trademark of the ZigBee Alliance in the United States and other countries.

Totally Integrated Control with Z-Wave®

Somfy innovates with...

embedded Z-Wave® motor control with the Glydea™ Z-Wave® Plug-In Module.

The Glydea™ Z-Wave® Plug-In Module is an interface between Somfy's Glydea™ motors and Z-Wave®, an interoperable, 2-way RF mesh networking technology. Attaching discreetly into the bottom of Somfy's line of Glydea™ motors, this new plug-in module offers seamless compatibility with third party automation systems using Z-Wave®. Compatible with both Glydea™ 35 and 60e dry contact motors.

Available mid 2012.

Z-Wave® is a registered trademark of Zensys Inc. and/or its subsidiaries.
